KINGSWAY'S NET INCOME INCREASES 77% AND WRITTEN PREMIUMS BY 93% TO NEW RECORD LEVELS

Toronto, Ontario (May 2, 2002) – Kingsway Financial Services Inc. (TSE:KFS, NYSE:KFS) today announced record financial results for the quarter ended March 31, 2002.

Q1 2002 Summary

- Earnings per share increased 22% to a Q1 record 33 cents (diluted and basic)
- Net income increased 77% to a quarterly record \$16.3 million
- Combined ratio improved to 99.3%
- Annualized return on equity was 11.9%
- Book value per share increased 34% to \$11.37
- Gross premiums written increased 93% to a quarterly record of \$416.4 million
- Gross premiums increased by 118% for U.S. operations and 37% for Canadian operations

Net income increased by 77% to \$16.3 million, compared to \$9.2 million reported in the first quarter of last year. Net income was positively affected by the discontinuance of goodwill amortization, which in the first quarter last year amounted to \$1.5 million.

Diluted and basic earnings per share increased to 33 cents for the quarter, compared to 27 cents for the first quarter of 2001. Earnings per share increased by 22% in the quarter on 43% more shares outstanding compared to the same quarter last year. In the first quarter last year amortization of goodwill reduced earnings per share by 4 cents.

"The continued growth in revenue and profit is very pleasing", said Bill Star, President & Chief Executive Officer. "We are off to a very positive start to the year, particularly from our U.S. operations which now represent three-quarters of our business. We continue to see exceptional opportunities for profitable growth in the United States and an improvement in market conditions in Canada."

Premium Growth

During the first quarter of 2002, gross premiums written increased 93% to a quarterly record of \$416.4 million, compared with \$216.0 million last year. Written premiums from U.S. operations increased 118% to \$324.1 compared with \$148.6 million last year. In the quarter, U.S. operations represented 78% of gross premiums written compared with 69% in the first quarter last year. Written premiums from Canadian operations grew 37% to \$92.3 million during the quarter.

Written premiums from non-standard automobile increased by 57% to \$199.7 million over the first quarter last year reflecting increased premium rates and firming market conditions in all of the Company's geographic locations. Written premiums from trucking and commercial automobile increased 211% to \$154.6 million compared to \$49.7 million in the first quarter last year, as a result of favourable rate increases and a contraction of competitive markets.

Net premiums written increased 93% to \$400.3 million compared with \$207.0 million for the first quarter of last year. Net premiums earned increased 91% to a record \$310.4 million for the quarter, compared with \$162.2 million for the first quarter last year. For U.S. operations, net premiums earned increased 133% to \$226.7 million compared with \$97.4 million in the first quarter of 2001. Net premiums earned from Canadian operations increased by 29% to \$83.7 million compared with \$64.8 million last year.

The continued growth in written premiums quarter-over-quarter has increased the amount of unearned premiums, the benefit of which will accrue in subsequent quarters. Unearned premiums as at March 31, 2002 grew to \$516.7 million, an increase of 22% over the \$424.1 million reported at the end of 2001.

Underwriting Profit & Combined Ratio

The combined ratio of 99.3% for the first quarter produced an underwriting profit of \$2.2 million, compared with \$0.5 million reported in the first quarter of 2001. For the quarter, the U.S. operations combined ratio improved to 96.2% (96.9% last year) and for the Canadian operations the combined ratio was 107.6% (103.8% last year). The results of our Canadian operations were adversely affected by results from Ontario automobile.

Investment Income

Investment income increased to \$13.7 million compared with \$13.5 million for the first quarter of 2001. In the first quarter last year, investment income was positively affected by a currency exchange gain of \$1.9 million compared with a loss of \$0.2 million in the first quarter of 2002. Realized gains amounted to \$3.7 million compared with \$1.9 million in the first quarter of 2001.
